

Five Safety Steps for any Disaster:

1. Get alerts to know what to do.
2. **Make a plan to protect your people.**
3. Get to safety with things you need.
4. Stay safe at home when you can't leave.
5. Help friends and neighbors get ready.

The 2nd of the Five Safety Steps is: "MAKE A PLAN TO PROTECT YOUR PEOPLE"!! 'Your people' is your family but may also include your neighbors. Over the next couple weeks, we will provide you with guidance to prepare a reliable plan including: important contact lists, evacuation route planning, safe destination/shelter areas, and other important information.

California OES and Listos California have a Disaster Response Guide (DRG) available to the community. The DRG is available in [seven languages](#). For the English language edition, click on the English image to the left. For Spanish, click on the Spanish language edition. To see or share the DRG in five other languages, hit the link [here](#), scroll down the page until you see the image as shown to the right, click on the DOWNLOAD button and select the language of your choice. If you know of someone that has limited English abilities, please guide them to this page. It could save a life.

Get Prepared

Use the Listos California **Disaster Ready Guide** to lead you through five basic steps for emergency preparedness.

[DOWNLOAD](#)

California experiences many types of disasters, wildfires being the most prevalent for us in the north state. We owe it to ourselves, our families, our friends and our neighbors - to prepare for any type of disaster. We ALSO owe it to our first responders. The more prepared we are as a community, the more time for them to focus on the actual emergency AND the safer for ALL involved.

Please take a moment, download the DRG and take the time to start filling it out. We will highlight a few of the sections over the next couple of weeks. The DRG is also available at the following fire departments: Yreka, South Yreka, Montague and Mayten. Thank you!!
