

The Listos Campaign was born from the severe wildfire seasons of the past several years and the high loss of life. We all agree that loss of life is not acceptable. WE ALL NEED TO BE PREPARED FOR DISASTERS that can and will happen. The next several weeks will help you, your family and neighborhood learn safety and survival skills in a disaster event.

The Badger fire was certainly a wakeup call for all of us in the greater Yreka area. No sooner had the Yreka Area Fire Safe Council wrapped up our 16 week Ready, Set, Go campaign from CAL FIRE and wildfire struck.... It will strike again! There are already new fire starts across much of the county from a recent lightning storm. Our neighboring counties to the east are battling wildfires that have grown exceptionally large for this time of year.

We ALL need to take the next steps to prepare ourselves. Guidance will be provided through the help of California

Department Office of Emergency Services' and United Way Northern California's Listos Campaign. Careful steps will focus on vulnerable populations that were severely impacted in recent fire disasters. Identified vulnerabilities include: older adults, individual that are the least mobile, people living with a disability, English not a primary language, those that have communications issues such as difficulty hearing or speaking, etc. We need to know how to take care of ourselves, our families and our neighbors.

Watch for these Messages Marked with this Box >>>>

In the coming weeks...

We will cover the Disaster Response Guide and the Five Safety Steps for any Disaster. We will learn how to receive alerts and review a few of the items we covered several months ago.

Fire season is here! Are you ready?
